

GARY ROLL

Business Analyst - Gary Roll Consulting Limited

WHAT I DO

I am an experienced business analyst with over 20 years of expertise in driving business transformation and developing systems.

I have comprehensive experience across all aspects of the BA role, bringing a strong business focus to diverse project teams. I have successfully supported major system changes, working seamlessly with stakeholders, third parties, and both business and technical teams.

My detailed, accurate documentation supports informed decision-making and ensures project success. I thrive in challenging environments and take pride in delivering results that align with business goals.

PROFESSIONAL EXPERIENCE

Business Analyst

Gary Roll Consulting Limited | October 2016 – Present

- **Agile Delivery (Energy Sector)** - Supported data dictionary creation and the Agile development process for a data integration project at a large energy utility. Analysis, Scrum processes and technical support.
- **Requirements Analysis** - For a major SQL Server decommissioning initiative. Collected, organised and agreed the required data.
- **Full Cycle Delivery** – Design, development and implementation of 'Apex' large-scale property asset management system.
- **Agile in Waterfall** - Managed design, implementation and training for management reporting and work management systems.

Senior Business Consultant

Innovation Group | November 1996 – June 2016

- Developed and implemented a strategic asset management system for a large London council, overseeing migration and integration.
- Designed and delivered an online system to manage service, maintenance, and repair ('SMR') data for vehicles. On time and budget.
- Conducted analysis and process design for key business functions, including financial forecasting, strategic planning, asbestos management, and quality standards.

Business Analysis Team Leader / Lead Consultant

Innovation Group (4 years, included in above dates)

- Led analysis and development of a gas servicing system and a new mortgage broker information system.
- Oversaw full life-cycle integration between retail systems and SAP.

Earlier Roles

- Senior Analyst Programmer | Newell Limited | 1990 – 1996
- Analyst Programmer | Searle Pharmaceuticals | 1990 (6 months)
- Senior Operator / Programmer | Corning Limited | 1988 – 1989
